Short cuts may produce quantity
not quality, we promote total quality assurance

High Class Sanitary Wear

“Durr” Quality: On road to progress.

“Durr” made a promise to the construction industry in Pakistan. The promise was to produce excellent quality with reasonable price. “Durr” has not let down its customers. As a result, today the demand for “Durr” sanitary ware has substantially increased where as “Durr” is planning its balancing and modernization. “Durr” has also paved its way into the markets of Middle East, Africa and Afghanistan. Therefore due to increase in exports, a demand in the local market for “Durr” has also developed. It is our privilege to plan for expansion. But it is “Durr”’s policy to offer quality and better service and a continued commitment; for years to come. “Durr” was different yesterday from its competitors, is different today and would remain different in future Insha Allah.
